Learn from CTGI offers obstetric simulation as you have never before. It can be used by anyone, anytime, anywhere. **REALITY** is a simulation ecosystem that integrates live wireless video streaming, live writing, dynamic 12 lead ECGs, CPR feedback, mimics proprietary monitors and defibrillators, and can grow with your simulation needs.

Learn from CTGI offers obstetric simulation as you have never before. It can be used by anyone, anytime, anywhere. **every day.**

AURIS allows heart, lung, and bowel sounds to be simulated using just a training stethoscope and an iOS or Android device. **AURIS** is easy to use and allows training to be conducted in a variety of different environments.

REALITY is a simulation ecosystem that integrates live wireless video streaming, live writing, dynamic 12 lead ECGs, CPR feedback, mimics proprietary monitors and defibrillators, and can grow with your simulation needs.

iSimulate is able to achieve this by utilizing the most current technology available. Our gesture based control panel is built to provide advanced functionality without the need for touch screen systems. We use the latest mobile technology to provide a seamless user experience.
