

Thinking Maps: Home & School Connection

Double Bubble Map

Compare and Contrast

This week, your child has been introduced to the Double Bubble Map. Ask your child to share what topics he or she has been comparing and contrasting in class. Then, take a few minutes to engage in a family activity that will reinforce this type of thinking and learning for your child at home.

The Double Bubble Map is used for showing similarities and differences.

Below is an example of a Double Bubble Map, where a banana and an apple are compared and contrasted.

Other ideas for using the Double Bubble Map:

- Two people/story characters
- Two animals
- Two stories
- Two cities

With your family, create a Double Bubble Map in the space below.
