

# Thinking Maps: Home & School Connection

This week, your child has been introduced to the Multi-ow Map. This Map is used for showing the causes and effects of different events or actions. Take a few minutes to engage in a family activity that will reinforce this type of thinking and learning for your child at home.

Below is an example of a Multi-ow Map that shows the causes and effects of eating a healthy breakfast.

## Other ideas for using the Multi-ow Map:

- Causes for someone to laugh
- Effects of not doing homework
- Cause/Effect of over sleeping
- Causes for increased prices
- Effects of making a poor/good decision

With your family, create a Multi-ow Map in the space below.
