

Subject: Medication Administration during School Hours

DATE: \_\_\_\_\_

Student Name: \_\_\_\_\_

\_\_\_\_\_

Agency of medication administered will require a new Physician and Parent Medication Authorization, \_\_\_\_\_ the type, dosage, and frequency

and the student. \_\_\_\_\_ arrangements have been made between the school nurse, principal, parents/guardians, and

\_\_\_\_\_ parent should be notified of any side effects or complications which may occur when taking the medication. \_\_\_\_\_

\_\_\_\_\_ Parents are responsible for seeing that adequate supplies of the medication are provided for the school.

unless prior arrangements have been made between the school nurse, principal, parents/guardians, and the student:

- At no time will a student be allowed to carry prescription or nonprescription medication on his/her person

medication in school for each prescribed medication in order for it to be dispensed to a student properly. The physician's order must be used as the licensed medical physician's order and instructions with a completed parent section of the

Physician

- A Physician, Advanced Registered Nurse Practitioner, or Physician Assistant must prescribe all over-the-counter

medication such as Tylenol, aspirin, and ibuprofen, and the appropriate Physician and Parent

is responsible for notifying the school nurse before any additional time for medication approval. The student
