Sole Source 21/22-PP: CodeCombat, Inc.

Opened: December 20, 2021

The district will recognize CodeCombat, Inc. as the sole developer and distributor of CodeCombat, including all its associated components as stated in their sole source letter, as a result of no contests being submitted during this Sole Source. This Sole Source was broadcast nationwide to over 725 organizations.

We will continue to recognize this for a period of 1 year, December 22, 2021-December 21, 2022, at which time we will again verify this claim and post another Sole Source for those who may wish to challenge.

Mike Pershing, NIGP-CPP, CPPB

CodeCombat, including its associated components, is a sole source product developed and sold by CodeCombat Inc., based in San Francisco, CA. Our standalone product is a unique service that is not offered by any other vendor or reseller in a similar format at a cheaper price. The product may be procured from CodeCombat Inc. at the address listed below.

The CodeCombat platform provides a full computer science curriculum for students in grades 4-12 to learn coding, computational thinking, digital literacy, web development, game development, algorithms, and other computer science principles, using real, textual programming languages. It's the only game-based learning product to offer such a curriculum. CodeCombat's high-engagement, game-based learning format helps reach all students, and its personalized learning system lets each student succeed in mastering difficult computer science concepts at their own pace, using project-based learning to demonstrate mastery.

For teachers, CodeCombat provides a full set of classroom management tools, including classroom statistics and dashboards, individual student progress and learning analysis report views, and secure student account administration features. The CodeCombat curriculum also provides many lesson plans, exercises, activities, and handouts to help teachers with little computer science experience provide a computer science class.

CodeCombat Inc. warrants that no other items or products are available for purchase that would serve the same purpose or function, and there is only one price for the CodeCombat standalone product because of exclusive distribution and marketing rights.

For more information about CodeCombat's product, see <https://codecombat.com> or contact schools@codecombat.com.

Sincerely,
