To Whom It May Concern:

This is to confirm that Wolters Kluwer Nursing Education Unit in partnership with Laerdal Medical is the sole source producer for the following products:

- vSim for Nursing | Fundamentals
- vSim for Nursing | Medical-Surgical Nursing
- vSim for Nursing | Maternity
- vSim for Nursing | Pediatrics
- vSim for Nursing | Maternity/Pediatrics
- vSim for Nursing | Gerontology
- vSim for Nursing | Pharmacology
- vSim for Nursing | Mental Health

The vSim for Nursing product line is a unique Virtual Simulation product line, which enhances clinical reasoning skills. Each vSim for Nursing product offers the following unique features:

Includes up to 10 patient scenarios developed jointly with the National League of Nursing. vSim provides unique personalized learning. It allows each student to have a different experience with the patient. By recording student interactions throughout the patient care scenario, a personalized feedback log is generated, customized to the user experience. Throughout the realistic patient simulation scenario, students have access to SmartSense links to additional learning opportunities through real-world point-of-care content from Lippincott Advisor and Lippincott Procedures. With vSim for Nursing, discover a unique simulation experience designed to improve student competence, confidence, and success in patient-centered care. Ability to integrate with Lippincott CoursePoint to allow a full, integrated course solution that combines content knowledge with practical application.

Kind Regards,
