To Whom It May Concern:

My husband and I designed a template to be used in the K-3 classrooms of the Idaho schools that I am assigned to as state literacy coach.

In February, our template was printed on full page label sheets and stuck onto dollar store baking sheets, but I wanted something more durable.

I reached out to several whiteboard factories with the request that they print my template onto a lightweight-as-possible-whiteboard folder. The factory makes these only for my small company Vowel Valley.

I am the only one that I know of who creates this product. I anticipate many to copy it, but for now, I am the sole source.

Please do not hesitate to reach out with any questions.
