

Welcome to Environmental Science! This year we will learn about how living things interact with one another in nature and how humans impact the Earth!

This course is organized into 5 units. The units are as follows:

Semester 1

- o Unit 1: The Nature of Science & Environment
- o Unit 2: Evolution
- o Unit 3: Classification

Semester 2

- o Unit 4: Ecology
- o Unit 5: Human Impact on the Environment

Activities 50%

- o Classwork (Activities, Lab, & Projects)
- o Bell Work Book
- o Homework

Assessment 50%

- o Quizzes
- o Tests

Free supplies in classroom during the 1st

-

&

Our classroom will be a MUTUALLY RESPECTFUL ENVIRONMENT.

Treat one another with respect.

Attendance is VITAL!

In order to be a successful learner, your presence in class is essential.

Arrive on time and remain seated until dismissed.

Phones/Ear Buds/Earphones stowed away in backpack

Remain seated until dismissed.

/

Cell phones, AirPods, headphones, earbuds and Apple Watches are not permitted at any time during instructional time. Instructional time is from the first bell at the start of class all the way until the bell to dismiss the class. Students will enter the classroom and once the bell rings all cell phones, AirPods, headphones, and earbuds must be placed turned off in the student's backpack which will be located in the back of the room. If a student has their cell phone out or Airpod in their ear, they will be asked to return the device to their backpack and turn it off. The student will receive a verbal warning. If the student is found a 2nd time with their cell phone out or Airpod in their ear they will be asked to place the device in the cell phone holder in the front of the room. If the student continues to have their electronic devices out, they will be referred to the AP Office.
